ACCEPTANCE CRITERIA:

- The option to search for matches is found on the match overview page
- A match is found based on its home team, away team and group
 - o These are the 3 elements that make a match unique
- If a match is found, an overview containing information about that match is shown
 - o This includes the group, date, time, home team, away team, winner if registered and creator
- If a match is not found, a message is shown, telling the user the match has not been found
