## STORY 14. SEARCH TRAINING BY DATE

As a user
I want to find all trainings on a specific date

So that I can easily find data related to trainings on that date

WIREFRAMES:

Zoek trainingen van een bepaalde datum

Date   mm / dd / yyyy

Search

Trainings Found

Volgende trainingen vonden plaats op 2010-10-10:

er

TrainingID	Date	Start	End	Duration (in min)
35	2010-10-10	10:01	10:15	14

Not Found

Deze zoekopdracht kon niet worden gevonden. Probeer opnieuw.

- The option to search for trainings is found on the training overview page
    - Users who don't have any trainings don't see the search function
- A training is found based on its date
- Only trainings that the user is authorized to view can be found
- If trainings are found, an overview containing information about those trainings are shown
    - This includes the trainers id, date, start and end time and duration
    - The results are ordered by creator
- If no trainings are found, a message is shown, telling the user that the search did not give any results
